THE DAYTON/MONTGOMERY COUNTY CONVENTION & VISITORS BUREAU

WELCOMES HAMVENTION!

AND, CONGRATULATES DARA ON THEIR 75TH ANNIVERSARY

***For information on area attractions, lodging, dining, and
activities please call 800-221-8235 or log onto
www.daytoncvb.com***

Welcome!

On behalf of the Dayton Amateur Radio Association and all the Dayton Hamvention® volunteers, it is my sincere pleasure and honor to welcome you to the 2005 Dayton Hamvention®.

This year we are celebrating the Dayton Amateur Radio Association's 75th Anniversary and welcoming back the ARRL National Convention. With the addition of these two outstanding events we are confident this year's Hamvention®, will be even better than last year's which was an overwhelming success.

Our return to an "All-Volunteer" show along with our efforts to reduce costs and improve how we operate exceeded all our expectations. The comments we received after the 2004 Hamvention® were just tremendous. In fact many people expressed to us how much better the show ran, how it was friendlier, the busing was the best ever and Hamvention® just had a completely different feeling than they had ever experienced before.

For 2005 virtually the entire team from last year's Hamvention® Committee has returned and will be working extremely hard to make your stay with us an outstanding experience you will never forget. Also, it is my pleasure to report that we have signed a three year agreement for 2005, 2006 and 2007 with Hara Arena. So, you can be confident that we are here to stay, we are not planning to move and you can make plans to attend with confidence.

Thank you for supporting the Dayton Hamvention®. We sincerely appreciate it and hope you find the treasures you are looking for. Remember: If you are looking for that unique item or treasure, you will find it at the Dayton Hamvention®.

The future is bright for the Dayton Hamvention® your one MUST-SEE event.

Tickets

Full-price tickets are available at the Hara Arena Box Office (Door #14) and the East Hall (Door #26) during the times shown at the right. A General Admission ticket is required to enter both the Inside Exhibits and the Flea Market Exhibits. The tickets are \$25.00 and valid for all three days. All persons over 12 years of age attending the Hamvention® Inside/Flea Market Exhibits are required to have an admission ticket. Age 12 years and under are FREE.

Cover

The front cover was created by Jerry Miller, WD8QAI, using QSL Cards that had been collected by Ron Moorefield, W8ILC.

Individual bus tickets for transportation between Salem Mall and Hara Arena will be available at the Salem Mall for \$3.00 day or \$8.00/weekend pass.

Ticket Sales Hours

Friday, May 20	7:00 A.M. to 6:00 P.M.
Saturday, May 21	7:00 A.M. to 5:00 P.M.
Sunday, May 22	7:00 A.M. to 12:00 NOON

Dayton Amateur Radio Association (DARA) and the Hamvention® fully support and are committed to the objectives of the Americans with Disabilities Act (ADA). DARA and Hamvention® strive to provide equal opportunity to all qualified persons to participate in Hamvention®. Our objective is to provide access to the event and we expect nothing less of those who provide building facilities, exhibits and services to our event.

Services

BAGGAGE CHECK

Baggage can be checked for \$3.00 per claim check in the Baggage Check room located across the hall from Forum Room 3. (Just inside Conference Center entrance on the left.) All items must be reclaimed by closing time each day. Time extended to 3:00 P.M. on Sunday. No overnight storage is permitted.

BANKING SERVICES

Local banks are located at Salem Mall. An ATM is located to the right of Hara Arena's front door.

DARA BOOTH

The DARA Booth is located in the lobby of Hara Arena. DARA memberships and information are available.

EMERGENCY MEDICAL CARE

On-site Emergency Medical Services are located to the right of Hara Arena's front door. Enter at Door 12. See the Exhibits Map on Page 20.

Emergency care is also available from the following:

Urgent Care Medical Center
5915 N. Main Street, 278-3826
8:30 A.M. - 10:00 P.M.

From Hara Arena, take Shiloh Springs east to traffic light at Main St. Turn left to first building on left.

Good Samaritan Hospital
2222 Philadelphia Dr., 278-2612

From Hara Arena take Wolf Road to Salem Ave. Turn left, proceed to the traffic light at Philadelphia.

LOST & FOUND

The DARA Booth, located in the Hara Arena Lobby will accept lost items. To retrieve lost items, please go to Hara Arena Box Office.

MESSAGE CENTER

Leave a message for your friends by entering their call sign and message at the Dara Booth in Hara Arena Lobby. Prize Monitors throughout the arena complex will periodically list "message holding" by call sign.

LICENSE EXAMS

Technician, General and Amateur Extra Class exams for all pre-registered candidates will be given at Hara Arena on Friday, May 20 at 2:30 P.M. and Saturday, May 21 at 9:30 A.M. & 2:30 P.M. If you have pre-registered, you are required to be at the testing area **no later than fifteen minutes** before the start of the exam. If you are late, your place will be given to a walk-in and you will have to take your chances with the rest of the walk-ins. Reservations are highly recommended; however, walk-ins will be accepted IF room is available.

All attendees must have the following:

1. A copy of your license, if you have a previous license.
2. A copy of your CSCE credit.
3. \$14.00 in exact change please! No checks or credit cards accepted.
4. A completed FCC Form 605.

SHIPPING SERVICE

The UPS Store offers freight service from the floor of Hamvention, near the North Hall entrance, Door 20. Hours are as follows:

Friday:	9:00 A.M. - 6:00 P.M.
Saturday	8:00 A.M. - 5:00 P.M.
Sunday	8:00 A.M. - 1:00 P.M.

SPECIAL EVENT STATION

Located in the Flea Market, spaces 101-103. See Flea Market Map 1. They will be operating at the following frequencies:

3.870/3.650; 7.270/7.050; 10.110; 14.270/14.050; 18.130/18.090; 21.370/21.050; 28.670/28.050; 147.55 Simplex. All freq's +/- QRM/QRN.

QSL: DARA, W8BI, PO Box 44, Dayton, OH 45401

TALK-IN FREQUENCIES

For directions and assistance in the Dayton Area during your visit to Hamvention®, contact "Talk-In" on the DARA Repeater 146.94 (-). Dayton Hams also monitor 223.94 (-), and 442.1 (+).

Transportation & Parking

PARKING & BUS SERVICE:

Satellite Parking - Salem Mall: Bus Service is provided between Hamvention® and our satellite parking area at Salem Mall. Buses run continuously starting at 7:30 A.M. and make routes as quickly as possible. Due to changing traffic patterns and bus loads, an exact bus schedule is impossible. The fee for bus service is \$3.00 per day or \$8.00 for the weekend, collected on in-bound trips only. Keep your bus ticket as there is no limit on the number of times you may ride the bus per day.

PAID PARKING:

Hamvention® has no paid parking available at the Arena, but paid parking for \$8 per day, will be available in the lots across from Hara Arena on Wolf Road. Hamvention® has no control over that parking. It is also on grass lots so weather conditions will determine how many spots are available. Some churches and other businesses in the past have offered paid parking near Hamvention®, but we have no information on whether any of those spots will be available this year or what their cost might be. The easiest choice is to park at Salem Mall and ride the bus to the Arena.

TRUCK & TRAILER PARKING:

Semi-trucks and/or trailers, other over-sized vehicles and large self-contained vehicles can park in designated areas at the Salem Mall. However, overnight camping is not permitted.

CAMPER PARKING

Campers, trailers, self-contained vehicles, or vehicles that require more than one space can park at the Salem Mall and take the bus to Hara Arena. The fee for bus service is \$3.00 per day or \$8.00 for the weekend, collected on in-bound trips only. No overnight camping is allowed.

Campers and trailers may park or camp at Tall Timbers KOA Campground (1-937-833-3888). Bus service availability had not been determined by program publishing date. Check with the campground.

TEMPORARY LOADING PASS

A temporary loading pass may only be obtained from the guard at Entrance 1 during the show (see ADA map on Page 6.). This restricted loading pass will be valid for 20 minutes and will allow you to use a designated area to load and unload equipment, or to pick up your exhibitor packet at the Exhibits Office. These passes will be time stamped and must be given to the guard at Exit Number 1 when you leave.

WHEELCHAIRS & SCOOTERS

Arrangements may be made by contacting ScootAround Inc toll-free at 1-888-441-7575, by email at info@scootaround.com, through their website at www.scootaround.com or by fax at (204) 478-1172. Rental rate is \$160.00 based on a three-day period. Equipment will be available on-site based on availability. Advance reservations are encouraged. To pick up your wheelchair or scooter, please go to Door 26.

May 18, 19 & 20, 2007

Transportation & Parking (Continued)

ADA PARKING

Hamvention® as you know does not have any public parking immediately at HARA Arena, however, it has been our desire and policy for many, many years to help accommodate those individuals with special needs. We are very sensitive to those needs and have gone well beyond all regulations to secure (at extra cost to Hamvention®) a limited number of spaces for these needs. Unfortunately the demand for ADA/Handicapped parking continues to grow dramatically each year and we simply are unable to accommodate everyone who requests a space.

Therefore, as in past years, we require you send in a copy of your State Issued ADA Parking Certificate, along with an SASE and we will process your request in the order in which it is received. Please remember, there are a very limited number of "Reserved" ADA/Handicapped parking spaces available so get your request in early.

Also, "New in 2005", we have set aside (**twenty**) "Reserved" ADA Parking spaces for those individuals who were unaware of/or choose not to follow our recommendation and register early. Please understand if you choose to wait and just come to the show the probability that you will find no ADA/Handicapped spaces available is extremely high.

Again, we STRONGLY urge you to send in your request early and in advance of the show.

The parking fees remain the same as last year: \$8.00/day per car and \$25.00/day for campers and etc. payable at the gate. (Please note: overnight campers, and etc., are not permitted at Hara Arena.)

Please note: The buses running from Salem Mall to Hara Arena front entrance are ADA equipped.

Welcome

WELCOME TO THE CITY OF TROTWOOD

*From the Office of the Mayor
The City Of Trotwood, Ohio*

Donald K. McLaurin

Dayton's Hamvention

On behalf of the City of Trotwood, I am pleased to welcome members of Hamvention to Trotwood, Ohio.

This event has been taking place at Hara Arena, 1001 Shiloh Springs Road for more than 25 + years. This is one of the premier events in the region and one that our City looks forward to each year.

Trotwood is very proud and pleased to have you in our City again this year. We know that it will be the successful event that you and your members are known for. We know that the entire Greater Dayton region will open their doors to you and extend their most humble and heartfelt hospitality during your stay.

The Trotwood City Council and I extend our very best wishes for another highly successful convention. Enjoy your stay in our region.

Best Wishes,

Donald K. McLaurin
Donald K. McLaurin
Mayor

GREETINGS

Rhine McLin

Mayor of the City of Dayton, Ohio

Dayton's Hamvention

On behalf of the citizens of Dayton, I am pleased to welcome members of Hamvention to Dayton, Ohio.

While we understand your focus during this event is to foster old friendships and develop new relationships, we also hope you will find the time to learn about our city.

As Dayton is home to the Wright Brothers and the "Birthplace of Aviation," it is only natural that our attractions would feature aviation as its heritage. You can learn about the history of flight by visiting the Dayton Aviation Heritage National Historical Park, the Aviation Trail, the United States Air Force Museum and Carillon Park, just to name a few.

I extend my very best wishes for a rewarding and memorable event in 2005 and beyond.

Rhine McLin

COUNTY ADMINISTRATOR
Deborah A. Tolman

Greetings:

ALL PARTICIPANTS OF THE
HAMVENTION
MAY, 2005

As Commissioners of Montgomery County, we would like to welcome each of you to our region for participation in the Hamvention. We believe the offerings of Dayton and Montgomery County will be enjoyable for you.

As you will discover, this area is rich in heritage, history, culture, and diversity. Our fine museums, attractions, shopping, and dining establishments will undoubtedly prove their outstanding reputations to you during your stay.

While you travel throughout the Dayton region, we believe you will realize the many advantages of selecting this area for your event. We stand ready to support all of your efforts and are certain you will find equal enthusiasm from our entire community.

Again, we welcome you to Dayton/Montgomery County and look forward to your return visit.

Sincerely,

BOARD OF COUNTY COMMISSIONERS
Montgomery County, Ohio

My First Hamvention

If this is your first Dayton Hamvention®, we would like to hear from you! Tell us who you are, how you got into ham radio and how you heard about the Dayton Hamvention®. Then tell us what your expectations were and how it compared with what you actually found. Write a one-page essay, include a picture (not returnable) of yourself and submit before September 30, 2005 to Hamvention, Box 1446, Dayton, Ohio 45401 or e-mail to wb8ifm@amsat.org.

You may win a prize!

Additional Activities

Thursday, May 19, 2005

AMSAT "PIZZA N' SUDS"

The Fourth Annual AMSAT "Pizza n' Suds" party will be held again this year at Marion's Piazza at 1320 North Fairfield Rd. The party will begin at 6:30 P.M. and go until the last pizza is gone! Food will be ordered from the menu and drinks (beer, wine, sodas and iced tea) are available at the bar. The party is open to all hams who are interested in amateur satellites. Come on in and make friends with some new hams.

CONTEST SUPER SUITE

From 7 P.M. to 2 A.M., CONTEST SUPER SUITE located in the Miami Room (2nd Floor) at the Crowne Plaza Hotel (downtown). The CONTEST SUPER SUITE will be hosted by North Coast Contesters, The Frankford Radio Club and the Mad River Radio Club. Midnight Pizza parties will be held every night by several contest clubs and others. Contesters and DXers are invited to join us for an evening of great conversation. Room for 300 DXers and Contesters.

Friday, May 20, 2005

AMSAT BANQUET

The AMSAT Banquet will be held Friday evening at 6:00 P.M. A happy hour will be held until 7:30 P.M. and there will be a cash bar. This year there will be appetizers served at the bar starting at 6:30 P.M. for those who attend happy hour! Again this year, the buffet banquet will be held at the Amber Rose Restaurant at 1400 Valley St. in Old North Dayton. Dinner will be served at 7:30 P.M. Price for the dinner is \$27.50 per person and includes appetizers, salad, meal, dessert, tax and gratuity. Coffee, tea and iced tea are included. Reservations are required and the banquet is limited strictly to 90 people maximum. Please, check at AMSAT Booth 445-448

CONTEST SUPER SUITE

From 7 P.M. to 2 A.M., CONTEST SUPER SUITE located in the Miami Room (2nd Floor) at the Crowne Plaza Hotel (downtown). The CONTEST SUPER SUITE will be hosted by North Coast Contesters, The Frankford Radio Club and the Mad River Radio Club. Midnight Pizza parties will be held every night by several contest clubs and others. Contesters and DXers are invited to join us for an evening of great conversation. Room for 300 DXers and Contesters.

Dayton Amateur Radio Association: A Short History

The Gem City Radio Club was the first amateur organization in Dayton. It was formed in 1914 and broke up in 1917 due to World War I.

The present Dayton Amateur Radio Association was formed in 1928. The original ARRL charter was signed by Hiram Percy Maxim, and was incorporated under the laws of the State of Ohio in 1929.

In 1928 DARA sponsored and held the Southwestern Ohio Hamfest. While it was a great success, it was a financial flop. DARA also sponsored the Central Division ARRL Convention at the Biltmore Hotel in 1930.

The interests of radio amateurs are varied and diversified. Members of DARA follow this pattern. DARA equipped and maintained an emergency radio station for the Red Cross at its headquarters on Monument Avenue during WWII.

Local Civil Defense communications were manned and trained by local amateurs. Their equipment was installed and maintained mainly by DARA personnel not in the military service.

After WWII, amateur radio was revived and DARA became quite active. Field Days, DXing and Traffic Nets were the primary activities. DARA's first Field Day was held at Madden Park in West Dayton. After considerable politicking, DARA finally got permission from the City of Dayton to be in the park overnight.

In 1947, Dr. John Kraus, W8JK, of Ohio State University, was persuaded to give a discussion and demonstration of various antennas using scaled down microwave equipment. It was at the Engineers Club of Dayton and was a huge success. Kraus was the inventor of the Helix Antenna. To get him to Dayton, DARA had to agree to build a 10 meter Helicoidal Beam. It was built at Carl Lightcap's (W8NSS) home in Drexel and was quite impressive! It was made of four circular elements of 4" downspouting and the boom was a 40-foot wooden extension ladder mounted on a telephone pole. It performed amazingly well. Unfortunately no pictures are available.

Quite a few hidden transmitter hunts were held around this time. Phone patches for overseas military personnel and precise frequency measuring were activities enjoyed by members.

In the late forties, TVI (Television Interference) reared its ugly head. DARA established a TVI Committee which has been very successful in coping with the problem.

In 1951, Frank Schwab, W8YCP (now W8OK) was elected President. A year or so earlier, John

DARA History Continued

Willig, W8ACE, approached the club about sponsoring a Ham Convention as opposed to a Hamfest and he was turned down for a number of reasons. Not the least of these was that DARA had a Hamfest in the late twenties and it turned out to be a financial disaster. Frank liked the idea of a Ham Convention and asked John to get some people together to see if it could be pulled off. The DARA board was so confident that they allocated the huge sum of \$100 to get started. The rest is history!

In the Beginning...

John's idea was to have a quality affair with talented speakers and excellent prizes. His research showed that it should be held in early spring because most area hamfests were in late summer and fall.

The first committee consisted of:

John Willig, W8ACE, General Chairman
Al Dinsmore, W8AUN, Arrangements (Deceased)
Bob Siff, W8QDI (now K4AMG), Prizes & Exhibits
Frank Schwab, W8YCP (now W8OK), Publicity
Bob Montgomery, W8CUJ, Finance
Clem Wolford, W8ENH, Program
Ellie Haburton, W8GJP (now W4ZVW), Women's Committee

We had a Women's Committee because we figured that if we could get the gals to attend, it would be easier for the guys to get here.

The word Hamvention was coined at the first meeting and we called the event the Southwestern Ohio Hamvention. After the first year, the hyphen was dropped and the words "Dayton Hamvention" were registered as a trademark.

Our first setback occurred when we found the Biltmore Hotel was only available on March 22 and not late April as we had planned. So we had a whole month taken off our already short lead time. We went ahead with our plans anyway,

although some club members thought we had totally lost our minds.

It didn't take long to find out the hundred bucks DARA put up was not enough to do the job. So we decided to raffle off a 12" TV set to raise more cash. It went well and we were off and running.

Several things happened to really get the ball rolling. First, Phil Rand, W1BDM, a pioneer in TVI elimination agreed to be on the program. Nearly everyone had a problem with TVI at the time, so it was quite timely. Second, we were able to get the FCC to agree to give exams at the Biltmore Hotel. This was very unusual and remember that the new

license structure had just recently gone into effect. All tests, including Novice, had to be taken before an FCC Inspector. Third, we were able to buy a Collins 75A2 receiver from SREPCO and Collins at an attractive price. This was to be the first prize.

We had a breakeven point of 300 visitors. Over 600 showed up! My wife, Carolyn, was in charge of registration and still remembers the crush of people at the registration desk.

There were 7 exhibitors and 6 forums. I don't remember how many people came to the banquet but it was one of the biggest the Biltmore ever had, up to that time. Hyde "Rube" Ruble, W8PTF, was the Master of Ceremonies and Larry LeKashman, W8IOP, was the featured speaker. Al Gunston, W8GQ gave a demonstration of his "Vacuum-less Vacuum Tube." This was an over-size open-air vacuum tube complete with a toaster element as the heater and a tin pie pan for a plate. He showed us how to cook hotdogs on the control grid!

The ladies program was very successful with a luncheon at the Biltmore and a trip to the local TV station where four of the women participated in a game show. Incidentally, the cost of Registration and Banquet was \$5.00!

As The Years Go By...

John Willig remained as chairman for four years and the early years were not without complications. One year we inadvertently scheduled the Hamvention at the same time as an American Legion Convention. Another time was during a Great Lakes Shrine Ceremonial. In later years it always fell on graduation weekend at the University of Dayton. In the end, we won because no one else could get hotel and motel rooms during Hamvention.

In 1955, the Biltmore was starting to bulge at the seams and some of the forums were held in the Engineers Club, which was one block east of the Hotel.

Also in 1955, the Hamvention Awards Program was started and has become a nationally accepted honor. It was started with the "Amateur of the Year" award and has been expanded to include the "Special Achievement" award and the "Technical Excellence" award. These awards are recognized as the "Oscars" and "Emmys" of Amateur Radio.

In 1978, I was delighted to have been chosen "Amateur of the Year." (A personal note, please... One of the highlights of my life was at the Awards ceremony when I looked out at the audience and saw my family of 12 children and their spouses attending. Many were from out of town and I didn't know they would be there.)

The Big Move...

In 1964 the Hamvention moved to Hara Arena. The Biltmore could no longer hold it. Most of the downtown Dayton parking areas had become flea markets with open trunks all day long. I was somewhat critical of the addition of the flea market at Hara Arena because I thought it would take away some of the "class" of the Hamvention. Obviously, I was wrong!

The first Master of Ceremonies at the Banquet at Hara Arena was Dan Graves, W8ZTL, who held the job for 16 years. Many of you will remember his distinctive style.

Free buses and handicapped parking were introduced in 1969. This has become quite expensive but it has greatly relieved the parking situation near the Arena.

In 1970, ARRL's "Ham's Wide World" had three premier showings at Hara Arena. Also that was the first year for a Hamvention Keynote Speaker.

DARA History Continued

He was Prose Walker, W4BW, FCC Chief of the Amateur Division. Another Keynoter was George Jacobs, W3ASK.

In 1973, the Hamvention became a 2-day event with Friday opening. Sunday hours were added in 1974.

After the first few years of publishing a small program, it was decided to try to sell advertising, and call it a "Souvenir Program" with the thought that people would take it home for reference. This worked well and each year it increased in size. In 1976, the 25th Anniversary issue, the dimensions were changed from the small 6x9" size (the same size as early Amateur Radio magazines) to the current 8-1/2 x 11" format, to match the new standard size of Amateur Radio magazines of the time. Also, the passing of Bob Drake, W8CYE was recorded with a full page photo in this 1976 book. He was truly a radio pioneer and a great friend of DARA and the Hamvention. The cover of this issue was printed on silver paper and has become somewhat of a collector's item.

The 1970 program book featured a full page photo of Neil Rapp, WB9VPG. Neil was licensed as a Novice at 5 years of age.

Communications Specialists brought the first full-color ad to the Souvenir Program in 1978, bringing the Souvenir Program to a new full-color era.

The Banquet...

Over the years there were many outstanding Banquet Speakers. Notably, Barry Goldwater,

K7UGA in 1974 and General F.H. (Butch) Griswold, KoDWC, in 1959. Gen. Griswold was Commander of the Strategic Air Command and pioneered SSB communications in the U.S. Air Force. During the Banquet, he demonstrated an SSB communications system by picking up a special telephone and was able to talk throughout the world via SSB. It was very impressive!

Some Banquet Speakers came back for more: Larry LeKashman, W2IOP/W8IOP/W9IOP, our first speaker, came back two more times. Jean Shepherd, K2ORS and Roy Neal, K6DUE, both returned numerous times as featured speakers.

Unofficial Activities...

The unofficial activities around Hamvention weekend have certainly added to the enjoyment! Just about all facets of Amateur Radio are covered somewhere during the 3-day event. Many have been around a long time. I'm thinking particularly of the beady-eyed DX'ers. They have been meeting since the first Hamvention. Many clubs from Ohio, New York, and more continue to feature added entertainment as part of our annual event.

Innovation and Critiques...

Much of the growth of Hamvention can be attributed to innovation. Immediately after each Hamvention, a critique meeting is held where all committee chairmen submit reports and discuss possible changes for the next year. It generally turns out to be a brainstorming session, with lots of ideas... some wild, some good, some really off the wall, and many that have been successful.

Why We Do It...

I'm sure most of the people who help with the Hamvention do it for sheer enjoyment. We all like to be part of a winning team. Personally, I have made many life-long friends and that makes it all worthwhile. Thanks!

Hamvention Continues To Grow...

Attendance has grown over the years to an average of 25,000 attendees. The number of foreign amateurs attending continues to increase. The value of the prizes has become more valuable.

In order to keep costs down, changes have been made. The most extensive was the limitation of bus transportation from area hotels and motels. Arrangements have been made for taxicabs to be available at the Hamvention site at very reasonable rates and doubling up passengers has been encouraged.

The Flea Market area has been increased so that nearly 2800 sites are available. As said in the original Hamvention mailer, "If you can't find it at Dayton, it's not available."

Many manufacturers and vendors have made the Dayton Hamvention THE place to show new equipment. Prices at the many distributor's

booths are better than anywhere else.

For years the Hamvention Talk-In Committee has done a very notable job of keeping some semblance of order on the various Dayton frequencies.

The Forums have continued to be the "piece de resistance" for many attendees.

The meeting rooms and the audio/visual capabilities are excellent. Many organizations have made the Hamvention the "Mecca" of their particular interest and meetings, banquets, and other activities take place all over the Dayton area. In one day an average of 300 FCC examinations are given.

As John Willig said about the very first Dayton Hamvention, "We're going to have a quality operation."

So it is.

-Frank Schwab, W8OK

The above article was written by Mr. Hamvention, Frank Schwab, W8OK, who became a silent key in June of 2003. The article was originally published in the 2002 Hamvention Program. Since it really is the Dayton Amateur Radio Association's history, we thought it was fitting to publish it again as we celebrate DARA's Seventy-fifth Anniversary.

The ARRL National Convention

at Dayton Hamvention® 2005

www.arrl.org

EXHIBIT & ACTIVITIES GUIDE

May 20-22, 2005

**Hara Arena, Conference & Exhibition Center
Dayton, Ohio**

Welcome radio amateurs and friends! This year, Dayton Hamvention® is host to the 2005 ARRL National Convention. It's like having two great shows in one!

Use these next pages as a handy guide to find your way around the ARRL National Convention activities and exhibits.

ARRL EXPO

Hamvention® has provided a large exhibit area to ARRL within the Ballarena Hall (near the 400-numbered booths). That's where you'll find ARRL EXPO, a huge showcase of ARRL exhibits and activities to enhance your Amateur Radio experience. Refer to the exhibitors map and look for the ARRL EXPO "button."

ARRL Bookstore (ARRL EXPO area)

Visit the HUGE ARRL bookstore to purchase popular ARRL publications, join or renew your ARRL membership, and pick up official ARRL merchandise. Meet ARRL authors, and see software demonstrations.

- **National Convention Membership Special!** Get a FREE gift when you join ARRL or renew.
- **Free Dayton Button!** Visit the ARRL Bookstore for your free ARRL National Convention souvenir button.

ARRL Diamond Club

Join ARRL Diamond Club, and receive a free gift! Visit the ARRL Bookstore or ARRL Development booth to sign up. Drop by for more information, or visit www.arrl.org/diamondclub.

ARRL Passport

ARRL Passport is the ultimate convention scavenger hunt. Pick up your free ARRL Passport at the ARRL EXPO exhibits area. Use your ARRL Passport as you wander from exhibitor to exhibitor and from activity to activity. Look for Passport signs throughout the convention, and collect Passport codes to qualify to win great prizes! No purchase necessary to participate. **Each copy of ARRL Passport includes the official rules and entry form.** Limited to the first 5,000 visitors to the ARRL EXPO exhibits area. Pick up your ARRL Passport, and join the fun!

ARRL Passport Prizes (confirmed by press time)

Grand Prizes

Kenwood TS-480HX 6-160 Meter All-Mode Transceiver
Icom IC-706MKIIG HF/VHF/UHF All-Mode Transceiver

Silver Prizes

Icom ID-800H VHF/UHF Digital Transceiver
AOR U.S.A. ARD9000 Digital Voice Interface

Bronze Prizes

Icom IC-2200H 144 MHz FM Transceiver with UT-118 Digital Board Unit
Alinco DJ-C7T VHF/UHF Dual-Band Micro Transceiver

The ARRL National Convention

at Dayton Hamvention® 2005

ARRL EXPO EXHIBITS AND BOOTHS

- **ARRL Bookstore** – Purchase publications, join or renew your ARRL membership, and pick up official ARRL merchandise.
- **ARRL Grassroots Lobbying** — Join the effort to support ARRL legislative initiatives that are helpful to ham radio.
- **The ARRL Lab** — Product review testing, RFI/EMI information, BPL presentation and more.
- **ARRL Section Managers and Section Leaders** – Visit this gathering area for ARRL Field Organization networking.
- **ARRL Education & Technology Program** — See displays of ARRL program kits, projects, activity boards and other resources available to schools and teachers. Also, information about Amateur Radio on the International Space Station (ARISS).
- **ARRL Youth Activities** — If you're a school-aged young person, drop by this exhibit for ham radio FUN and prizes!
- **ARRL Affiliated Clubs and Mentor Program**
- **DXCC Card Checking** (see **ARRL Activities** for additional information)
- **Emergency Communications and Public Service** — Register for the popular Emergency Communications online courses.
- **TravelPlus for Repeaters™** software demonstration
- **ARRL Volunteer Examiner Coordinator** — Licensing forms, testing information and more.
- **ARRL Development** — Diamond Club, Spectrum Defense Fund, Education & Technology Fund, W1AW Endowment Fund and more.
- **The ARRL Foundation** — Serving Amateur Radio with college scholarships and grants.
- **ARRL Media and Public Relations**
- **ARRL Technology Task Force**
- **Welcome New Hams!** – New to ham radio? Recently licensed? ARRL is here to help YOU.
- **Meet QST's printer!** — ARRL is proud of its partnership with RR Donnelley, ranked number one in the printing industry on FORTUNE magazine's list of most admired companies. RR Donnelley prints 7 out of the top 10 consumer magazines in the United States.
- **ARRL guest exhibits:**
 - **The International Amateur Radio Union**
 - **United States Power Squadrons®**
 - **The National Association of Radio and Telecommunications Engineers**

ARRL ACTIVITIES & SPECIAL EXHIBITS

The ARRL Stage (ARRL EXPO area)

See live presentations every half hour at the ARRL Stage, located in the ARRL EXPO area. A list of presentations is posted near the stage. Hear from ARRL volunteers and staff on a variety of topics!

Get your photo on the cover of QST.

You're famous! Come to be photographed at this booth, and your photo will be superimposed on a cover of *QST*. You won't want to miss getting this cool keepsake of your trip to Dayton. Take home your personalized *QST* cover to hang up in the shack! Purchase tickets at the ARRL Bookstore (ARRL EXPO area). **Price \$10.**

ARRL Internet Café and WiFi

Got a laptop? The ARRL EXPO exhibit area in the Hara Ballarena is equipped with a wireless LAN. The system is 802.11b/g compliant. Any laptop or device equipped for wireless will enjoy Internet access within the ARRL EXPO vicinity. The ARRL EXPO will also include a small Internet café with computers set up to browse. Access your e-mail and the Internet. Surf away! *Compliments of ARRL, in partnership with the Dayton Microcomputer Association.*

The logo for the ARRL EXPO 2005, featuring the text "ARRL EXPO 2005" inside a circular emblem with a diamond shape in the center.

The ARRL National Convention

at Dayton Hamvention® 2005

www.arrl.org

Meet Astronaut Tony England, W0ORE

Friday May 20, 9:30 to 10 AM, ARRL EXPO exhibits area

Friday May 20, 10 to 10:30 AM, ARRL Youth Activities booth (ARRL EXPO area)

Ham-radio-in-space pioneer Dr. Tony England, W0ORE is the second US astronaut to ever use Amateur Radio in space. He is a special guest of the ARRL National Convention at Dayton Hamvention®. Visitors may want to have Tony autograph their convention programs or ARRL Passports. During his NASA career, Tony served on the support staff for the Apollo 13 and 16 flights. In 1985, Tony flew the Space Amateur Radio EXperiment (SAREX) during the STS-51F Spacelab-2 mission. He retired from NASA in 1988 after logging 188 hours in space. Tony is now Associate Dean for Academic Affairs for the University of Michigan College of Engineering as well as a professor of electrical engineering and computer science and professor of atmospheric, oceanic and space sciences.

2005 Annual ARRL EmComm Banquet

Friday May 20, 5:30 PM

For the second year, all ARRL Amateur Radio Communications course graduates and friends are invited to join us at Ryan's Restaurant in Kettering, Ohio, for the EmComm Banquet. The "Mentor of the Year!" award will be presented. Space is limited. Contact Dan Miller, K3UFG, at the Emergency Communications and Public Service booth (ARRL EXPO area).

ARRL Wouff Hong Ceremony

Saturday May 21, 10:30 PM, Crowne Plaza Hotel

Participate in this lively ARRL tradition. The Wouff Hong Ceremony is a ritual steeped in mystery! Attendees receive a special keepsake. ARRL Ohio Section Manger Joe Phillips, K8QOE, organizes this fun activity for all ages. Come join us!

ARRL Youth Activities (ARRL EXPO area)

If you're a school-aged young person, drop by this exhibit for fun, and prizes! Try your hand at games like *Name that Bot*, *Call Sign Scavenger Hunt*, and *Ham Radio Jeopardy*. Participants compete in a daily drawing for grand prizes. Explore Morse code! Test your sending skills on a key. Make a name wristband with your name in Morse code. And, play Robot bingo, an opportunity to win prizes for maneuvering a wireless-controlled robot through a maze. Adults are welcome to come by and watch the fun!

ARRL thanks Icom for its support of ARRL youth activities.

DXCC Card Checking (ARRL EXPO area)

Friday, Saturday, and Sunday

Personnel from the ARRL DXCC Branch and volunteers are on hand to check your DX cards and applications. All cards are eligible for checking, including old cards, cards for deleted countries and cards for 160 Meters. Applications are limited to 120 cards (more cards will be checked as time and volunteer card checkers are available). See www.arrl.org/awards/dxcc for the latest program information and current forms.

JARL Card Checking! For the first time at Dayton you can have your QSL cards checked for several awards sponsored by the Japan Amateur Radio League! World renowned DXer Masa Ebisawa, JA1DM, is present at the ARRL DXCC booth to represent JARL and check cards for most of the awards sponsored by JARL: Asian DX Award (ADXA); All Japan Districts Award (AJD); Worked All Japan Prefectures Award (WAJA); Japan Century Guns Award; Worked All Squares Award (WASA). Please see www.jarl.or.jp/English/4_Library/A-4-2_Awards/ for complete information on these and other JARL awards.

W1AW/8 Special Event Station

Bring a copy of your license to operate using the world's most recognized call sign. Located in the flea market (or exact location to be announced), and operating on the following frequencies: 3.870/3.650; 7.270/7.050; 10.110; 14.270/14.050; 18.130/18.090; 21.370/21.050; 28.670/28.050 MHz; 147.55 MHz simplex. All freqs are +/- QRM. QSL: ARRL, W1AW/8, 225 Main Street, Newington, CT 06111 (include an SASE).

Amateur Radio License Examinations

Friday, May 20, 2:30 PM

Saturday, May 21, 9:30 AM and 2:30 PM

ARRL/VEC-administered Amateur Radio license examinations are provided by the Dayton Amateur Radio Association. See information elsewhere in the Hamvention® program for details.

Commercial License Examinations

FCC Commercial License testing is provided by NARTE, the National Association of Radio and Telecommunications Engineers. Testing fee is \$40.00 (not included in Hamvention entrance fee). Please visit the NARTE exhibit in the ARRL EXPO area for more information. For additional information and other examination opportunities, contact NARTE at 1-800-89-NARTE or visit www.narte.org.

The International Amateur Radio Union (IARU) Meeting Area

Located in the ARRL EXPO area, this is the place to come and gather under the IARU flag. Help us extend a special welcome to travelers representing other IARU member societies. This worldwide fellowship booth is a place for everyone to relax, gather and meet.

ARRL FORUMS

See the forum schedule elsewhere in the Hamvention® program for a complete slate of convention forums including the Teacher's Workshop with Carole Perry and Youth in Amateur Radio Program, DXing and Contest forums and more!

Friday May 20, 2005

This is a detailed street map of Dayton, Ohio. The map shows the following features:

- Highways:** I-70 running horizontally across the top; I-75 running vertically on the right side; SR 49 (St. Rt. 49) running diagonally from the top left; and SR 35 (St. Rt. 35) running horizontally across the middle.
- Landmarks and Points of Interest:**
 - Dayton International Airport (top center)
 - Vandalia (top right)
 - Englewood (top left)
 - Salem Mall (middle left)
 - Hara Arena (middle left)
 - USAF Museum (middle right)
 - E. J. Nutter Center (far right)
 - Dayton Mall (bottom center, marked with a black square)
 - MHS (Medical Health Services, bottom left)
- Streets:**
 - Major streets include St. Rt. 49, St. Rt. 35, St. Rt. 4, St. Rt. 741, and St. Rt. 725.
 - Local streets shown include Westbrook Rd., Shiloh Springs Rd., Turner Rd., Siebenthaler Ave., Free Pike, Philadelphia Dr., N. Main St., Salem Ave., Geittsburg Ave., Dog Leg Rd., Meeker Rd., Peter's Pk., Frederick Pk., North Dixie Hwy., Miller Ln., Needmore Rd., Wagoner Ford Rd., Stanley Ave., Keowee St., First St., Linden Ave., Airway Rd., Woodman Dr., Stroop Rd., Far Hills Ave., Dorothy Lane, Nicholas Rd., Edwin C. Moses Blvd., Patterson Blvd., and Col. Glenn Hwy.
- Exits and Interchanges:** Numerous exits are labeled, including Exit 24, 26, 29, 32, 33, 52A & B, 50B, 50, 47, 44, 43, 4A & B, 58, 57, 59, 61, 63, 17, and 44.
- Other Features:**
 - Tall Timbers KOA (top left)
 - Shiloh Springs Rd.
 - Turner
 - Free Pike
 - SR 49 / 35 Connector
 - Geittsburg Ave.
 - Philadelphia Dr.

Forums

Friday, May 20, 2005

- 9:00 - 10:15 APRS ROOM 1**
Moderator: Stan Horzempa, WA1LOU
Speakers: Byon Garrabrant, N6BG
 John Hansen, W2F
 Keith Sproul, WU2Z
 Mark Sproul, KB2ICI
The state-of-the-art of APRS (Automatic Position Reporting System). Learn all about the new hardware, software, and protocol developments in APRS.
- 10:30 - 12:45 TAPR/DIGITAL ROOM 1**
Moderator: John Ackermann, N8UR
Speakers: John Ackermann, N8UR, and Steve Bible, N7HPR
 Introduction and TAPR Update
 Mel Whitten, K0PFX
 WinDRM Software Digital Voice and Data
 Eric Blossom, K7GNU
 GnuRadio/Software Defined Radio
- 1:00 - 2:30 COLLINS RADIO RESTORATION ROOM 1**
Moderator: David Knepper, W3ST, Secretary of the Collins Radio Association
Restoration of the Collins 30-FX Transmitter
Restoration of an S-e, 75S-2, and 32S-2
Restoration and Repair of Collins Amateur Equipment
- 2:45 - 3:45 YLRL ROOM 1**
Moderator: Cheryl Muhr, N0WBV, YLRL president
One of the main points of the forum will be discussing the upcoming convention in Denver, Colorado, August 11-14th, 2005. This is the 50th convention year and a great gathering has been planned. We will also discuss the YLRL web site and new Yahoo! groups site for YLRL members.
- 4:00 - 5:00 THE BOX-KITE YAGI ROOM 1**
A novel high performance antenna for vhf through microwaves
This forum will discuss a novel yagi-like antenna that is particularly applicable from 50 MHz up through 6 GHz. The antenna has the unique property of providing excellent performance on 2 bands, without complex diplexers or separate feeders. All the elements are active on both bands. We will also discuss a version, optimized for use on one band, that has higher gain than a conventional long yagi having the same boom length. The theory of operation will be discussed, and prototype test results presented. Some physical prototypes will be available for inspection.

- 9:00 - 10:00 ARRL GRASSROOTS LOBBYING ROOM 2**
 Moderator: Frank Fallon, N2FF
 Here's a chance to network with fellow hams involved in shaping Amateur Radio's future through government planning and policy. Grassroots efforts put hams directly in touch with government officials when federal legislation is proposed that can help Amateur Radio. Find out what ARRL is doing to make this happen. Join the effort to support ARRL in its effort to get legislation helpful to ham radio. This forum will give you the tools you need. We can do it together!
- 10:15 - 11:15 ARRL GOES TO WASHINGTON FOR YOU ROOM 2**
 Moderator: Jim Haynie, W5JBP
 Hear how the latest issues in Washington affect YOUR Amateur Radio. Meet ARRL President Haynie, W5JBP
- 11:30 - 12:30 QRP ROOM 2**
 Moderator: Ken Evans
- 12:45 - 2:00 KIT BUILDING ROOM 2**
 Moderator: Joe Eisenberg, KØNEB,
 Speakers: Wayne Burdick, N6KR
 Phil Anderson, WØXI
 This forum provides an introduction to kits and will have examples including Elecraft kits, Rockmites, as well as Alden-McDuffie (a new brand) and others that are not as well known, but good choices to build. We will show examples of both easy beginner kits and advanced kits to help revitalize the lost art and fun that kit building has to offer.
- 2:15 - 3:45 TEACHERS' WORKSHOP ROOM 2**
 Moderator: Dave Bell, W6AQ
 Speakers: Dave Bell, W6AQ, Using DX In The Classroom
 Joe Eisenberg, KØNEB , Kit Building For Kids
 Tom Nader, Robotics Demonstration
 Bob Rose, AA3RR, Recruiting Tips For Kids' ARC
- 4:00 - 5:00 AM ROOM 2**
 AM International Update
 Moderator: Dale Gagnon, KW1I
 Speaker: Dennis DuVall, W7QHO
 Military Radio Fun - Southern California's Military Radio Collectors Group
 People, equipment and activities will be profiled in a pictorial presentation. MRCG members not only restore their radios, but they enjoy regular team field events that simulate their radios original purpose.

- 9:00 - 10:00** **LIGHTNING PROTECTION..... ROOM 3**
 Moderator: Ron Cohen, K3ZKO and George McCormick, N2BCX (assistant)
 Ron brings his 33 years of experience in the Two-Way-radio field performing Grounding and Lightning Protection at remote radio locations. Learn how to direct the lightning away from your equipment and your house.
- 10:15 - 11:15** **ANTENNA DESIGN BREAKTHROUGHS ROOM 3**
 Speaker: Ken Glanzer, K7GC
 There is a simple way to increase the gain of a 2 element quad and at the same time lower the R_r from 140 to 50 ohms, without a Gamma match (worst matching device ever devised). This new approach also has a sharper vertical pattern than the horizontal pattern. Using conventional antenna design to obtain this much increase in sharpness of the vertical pattern would require one or two additional elements. Using other technologies, only stacked beams have a sharper vertical pattern than the horizontal. In this forum we will discuss how the Gamma match ruins F/B and reduces gain in a dramatic way. Using computer simulation, we will show how RF Spill-over affects the pattern. We will discuss the term "RF Spill-over" and expound on this problem. In addition, we will discuss how a one pole Rhombic outperforms longer 4 pole Rhombics with far shorter wires. This technique uses the guy wires on the tower and gives them a second use. They are slanted and tilted and provides increased gain, with a much lower angle. In conclusion, we will discuss another development that incorporates the feeding of both elements, with the proper phasing, to provide increased gain.
- 11:30 - 12:30** **TROPOSPHERIC DUCTING ROOM 3**
 Speaker: Gordon West, WB6NOA
 Tropospheric Ducting coming soon! Gordo brings in a laser and record breaking audio clips to describe how hams on 2 meters and 440 MHz are talking over a thousand miles on FM, with a listen-to of SSB for even further range contacts! Tropo time is only a couple months away!
- 12:45 - 2:15** **AMATEUR RADIO AND THE LAW ROOM 3**
Getting it Up and Keeping it UP
 Moderator: Jim O'Connell, W9WU
 Speakers: Jim O'Connell, W9WU, ARRL Volunteer Counsel
 Chris Imlay, W3KD, ARRL General Counsel
 Fred Hopengarten, K1VR, ARRL Volunteer Counsel
 Tim Ellam, VE6SH (author), IARU Vice President
 Jay Bellows, KØQB, ARRL Dakota Division Director
 A discussion by Amateur Radio attorneys on legal issues of interest to hams: How to avoid restrictive covenants, present your case for a tower permit, plus info on the latest court rulings on RFI, PRB-1 and towers. Also details on issues of Homeland Security and how hams play a critical support role.

2:30 - 3:45

ARRL AMATEUR RADIO EMERGENCY SERVICE (ARES) ROOM 3

Moderator: Steve Ewald, WV1X

John Chapman, WB8INY, ARRL Ohio SEC hosts:

Speakers: Steve Ewald, WV1X, overall emergency communications and public service

Kay Craigie, N3KN, ARRL Vice President, Pennsylvania county ARES/RACES organization's backup to 911

Joyce Birmingham, KA2ANF, ARRL Hudson Division Vice Director, Skywarn ops and public service events

Dan Miller, K3UFG, ARRL EmComm Grants Coordinator, grants A short Q&A follows.

4:00 - 5:00

10-10 INTERNATIONAL..... ROOM 3

What has 10-10 done to 10 Meters

Moderator: Gerry Gross, WA6POZ, #21274, 10-10 Data Manager

Speaker: Chuck Imsande, W6YLJ, #19636, 10-10 President

Keith Schlottman, KR7RK, #63324, 10-10 Treasurer

Chuck and Keith will explain 10-10's 6 year plan to increase activity on 10 meters, and they promise success. Chuck will bring us up to date on other 10-10 activities.

9:00 - 10:00

ARRL CLUBS AND MENTORING ROOM 4

Moderator: Norm Fusaro, W3IZ

Clubs are a place where all hams can share experiences and build friendships. They are also a focus for mentoring and instruction. This forum will look at fresh and exciting ways to make your radio club a hub of activity. Remember who helped you get started in Amateur Radio? Hear fascinating and fun approaches on how you can return the favor, coaching new hams.

10:15 - 11:15

TECHNIQUES OF THE BEST OPERATORS ROOM 4

Moderator: Mitch Stern, W1SJ

11:30 - 12:30

MAGNETIC CORES OF BALUNS AND UN-UNS ROOM 4

Moderator: Jerry Sevick, W2FMI

Continued on Page 39

Award Winners

A television news producer from California, a DXpedition leader turned communications hero from India, and a researcher from New Jersey have been selected as recipients of the 2005 Dayton Hamvention® awards.

Special Achievement Award recipient D. Bharathi Prasad, VU2RBI, was on the air from the VU4RBI/VY4NRO DXpedition in Port Blair in the Andaman and Nicobar Islands when disaster struck on December 29, 2004. A massive earthquake occurred at 22:58 UTC off the west coast of northern Sumatra. It measured 8.9 on the Richter scale and triggered a tsunami that took over 300,000 lives across the region. After checking that everyone was safe and that the antennas were still on the roof, DXpedition team leader D. Bharathi Prasad, VU2RBI, got back on the air and contacted HSØZZA in Thailand and VU2UU and VU2MYL on the Indian mainland. Both confirmed tremors in their locations. She then shifted the operation to handle emergency traffic and health and welfare inquiries between the island and the Indian mainland. Simultaneously, she sent team members to the office of the Chief Secretary, Government of Andaman & Nicobar Islands, expressing the operators' willingness to support an emergency communications network to assist the government administration. For many days Prasad and the other DXpedition members were the lone voices on the radio bringing aid and comfort to the people of the isolated islands. Mrs. Prasad said she wants to share this honor with her fellow operators, with India's national Institution of Amateur Radio, Hyderabad and India's Dept. of Information Technology (Information supplied by CQ Magazine, ARRL, ARNewsline, and others)

Technical Excellence Award winner Dr. Jerry Sevick, W2FMI, is well known in ham radio technical circles world-wide for his many books, articles and other writings. Jerry earned a BS in education at Wayne State University and his PhD in applied physics from Harvard University. From 1952 until 1956, Jerry taught physics at Wayne State University. Jerry then joined the staff at AT&T's Bell Laboratories. Jerry supervised teams in high-frequency transistor and integrated circuit development. He worked in reliability and applications engineering and high-speed PCM. Before retiring in 1985, he served as Director of Technical Relations. Jerry's interest in amateur radio launched his experiments with short vertical antennas and broadband matching networks. His April, 1978, article in QST on short ground-radial systems now serves as the standard for earth conductivity measurements. Transmission Line Transformers, published by the ARRL, was the result of his work on the characterization and design of transformers for low impedance applications. He also wrote a series on baluns for Communications Quarterly and a series on un-uns for CQ Magazine. Dr. Sevick is a Technical Advisor for the ARRL and is a member of IEEE, Sigma XI, Sigma PI Sigma and Phi Delta Kappa. He was a bomber pilot during World War II and has been elected into Wayne State University's Athletic Hall of Fame for his records in football and track.

Selected as **Radio Amateur of the Year** for his dedication to the ongoing education of radio amateurs in the many facets of our hobby and in the area of publicizing Amateur Radio to the non-licensed world through the mass media, is Alan S. Kaul, W6RCL. Alan is a career electronic journalist currently serving as West Coast Producer for NBC Nightly News. A licensed amateur most of his life, he began his service to the hobby in the late 1970's as a writer and reporter for the Westlink Amateur Radio News. One of the best remembered contributions to Newsline was his report on the death of His Majesty Al Hussein ibn Talal, JY1, King of Jordan. Working from an intimate knowledge

Continued on next page

of King Hussein and the monarch's many ham radio friends, Kaul wove a word picture of the "man and his hobby" as seen through the eyes of those who knew him best. Alan was the volunteer producer of a half hour video about the first ham radio operation from orbit by Dr. Owen Garriott, W5LFL, titled "Amateur Radio's Newest Frontier." Alan is active in several worlds of Amateur Radio, including QRP operation, CW operation and contesting to name only three. In 2002 producer Dave Bell, W6AQ asked Alan to devise a concept for participation by CBS Newsman Walter Cronkite, KB2GSD, to anchor a short presentation dealing with the reliability of ham radio during crisis situations. Titled "Amateur Radio Today", it was released by the American Radio Relay League in January 2003. This video has been used by the ARRL in its dealings with Congress and other legislators and received the Chicago Film Festival's Certificate of Merit for a non-broadcast documentary. Kaul's latest video project, known by the working title, "The ARRL Goes to Washington", is slated for release this spring. It documents the work being done on the political front by the ARRL to preserve the precious spectrum upon which radio amateurs operate and to protect it from interference from sources such as Broadband Over Powerline Internet access. Alan and his wife, Christine, lives in La Canada, California.

2006 Award Nomination Form

Your Name: _____ Your Call sign: _____

Your Address: _____

City: _____ State/Prov: _____ Postal Code: _____

Your Phone: _____ Your Email: _____

I am nominating the following for: (Please, check only one.)

☐ **Amateur of the Year** - This is for the special person who has made a long term commitment to the advancement of amateur radio. We are looking for a well-rounded individual who has contributed to our hobby in some outstanding way.

☐ **Technical Excellence** - This is for the person who has made an outstanding technical advancement in the field of amateur radio.

☐ **Special Achievement** - This is for the person who has made an outstanding contribution to the advancement of amateur radio. This award is usually given to a respected amateur who spearheaded a single significant project.

Their Name: _____ Their Call sign: _____

Their Address: _____

City: _____ State/Prov: _____ Postal Code: _____

Their Phone: _____ Their Email: _____

Please, attach a statement as to why the above is worthy of the nomination. Attach any supporting documents and send to:

Dayton Hamvention Awards
P.O. Box 964
Dayton, OH 45401-0964

Previous Award Winners

AMATEUR OF THE YEAR

1955 William C. Jenney, W8FYW Benjamin S. Zieg, W9EHU, K40QK	1980 Wayne Overbeck, N6NB
1956 Edmund C. Ryan, W8LRR	1981 Eric C. Shalkhauser, W9CI
1957 Ralph Crammer, W8VHO	1982 Robert G. Heil, Jr., K9EID
1958 Rev. C. Lynn White, K4CC	1983 Katashi Nose, KH6IJ
1959 Harlow Lucas, W8QQ	1984 Dave L. Bell, W6AQ
1960 Paul Woffe, W8IVE	1985 John J. Willig, W8ACE
1961 Ed Bonnet, W8OVG	1986 Roy Neal, K6DUE
1962 Dana Cartwright, W8UPB	1987 Carole Perry, WB2MGP
1963 Chester Funk, K8EUF, K7ZKL	1988 Bill Bennett, W7PHO
1964 H. Ruble, W8PTF	1989 Bill Pasternak, WA6ITF

1994 Dick Newell, AK1A	

- 12:45 - 2:00 FIGHTING BPL AND WINNING ROOM 4**
 Moderator: Dave Yoder KB3HUC
 The concept is to use the power distribution grid to send digital data at high speed to consumers. While this sounds great, anyone with electricity can just plug in a modem to get Internet access. But, BPL has *terrible* technical implications for hams. The problem with most BPL proposals (technology is still in the development stage) is that data is sent out at HF frequencies- generally from the top of the AM domestic broadcast band at 1.8 MHz to the bottom of the FM broadcast band, at 88 MHz. Smack dab in the middle of this spectrum is our traditional HF bands. Come to this forum and learn how an average club stopped BPL in its tracks-before trials started!
- 2:15 - 3:45 COUNTY HUNTERS ROOM 4**
 Moderator: Bob Voss, N4CD, Introduction/New Developments
 Speakers: Lori Peerenboom, K8XTQ, County Hunting from the YL Perspective
 Fred Peerenboom, KE8TQ, Life with a County Hunter
 Steve Morton, AA8HH, County Hunter Adventures
 Forum will discuss County Hunting (working towards awards by working USA Counties), County Hunting News, New Developments including using 30M
- 4:00 - 5:00 DISASTERS AND HAM RADIO ROOM 4**
 Moderator/speaker: Kailash Gupta, KG6SQR
 This forum will discuss how amateur radio emergency communication was vital during Gujarat, India Earthquake in 2001 and how the disaster management system was set up.

Saturday, May 21, 2005

8:15 - 9:45

AMSAT ROOM 1

Moderator: Barry Baines, WD4ASW, VP-Marketing & User Services, AMSAT-NA

Speakers: Rick Hambly, W2GPS, "AMSAT's Mission and Vision"
Jim Sanford, WB4GCS, "Eagle Project Update"
Sam Jewell, G4DDK, "An Update on SSETI Express Student/AMSAT-UK Satellite"
Frank Bauer, KA3HDO, "Human Space flight Update (ARISS & Future Exploration Initiatives)"

10:00 - 12:00

FCC..... ROOM 1

Speakers: Riley Hollingsworth, K4ZDH
William T. Cross, W3TN

12:15 - 2:30

AMATEUR TELEVISION (ATV)..... ROOM 1

Moderator: Bill Parker, W8DMR

Speakers: Ken Morris, K8RUT, Introduction to Digital ATV, as applied to WR8ATV Repeater. The application of D-ATV to the Columbus, Ohio ATV repeater may be the first in the U.S.A. The gear selected, test trials, and the results will be presented. Expected expansion plans declared.

Art Towslee, WA8RMC: The Care and Feeding of a Comprehensive ATV Repeater Bands & frequency choices, site selection, equipment, antenna types, power levels, transmission lines, and other critical issues.

Bill Brown, WB8ELK: High Flying ATV University balloonsat-Carrying ATV to the edge of space.

Announcements by:

Jesse Nicely, KB8OFF, DARA ATV repeater status
Eugene Harlan, WB9MMM, ATVQ editor
Art Towslee, WA8RMC, ATCO editor
Ron Cohen, K3ZKO, ATNA activities

2:45 - 5:00

SLOW SCAN TV (SSTV)..... ROOM 1

New Developments in Digital SSTV

Moderator: Dr. Don C. Miller, W9NTP
Jess Nicely, KB8OFF, announcements

Speakers: Dr. Robert Suding, WØLMD, Slow Scan Television (SSTV) For Beginners"
Louis McFadin, W5DID, SSTV in Outer Space (SUITSAT and ISS)
Dave Jones, KB4YZ, Comparison between digital SSTV systems
Mel Whitten, KØPFX, Introduction to winDRM software

See writeup on Amateur Television on Page 46.

8:00 - 9:15

SOFTWARE DEFINED RADIOS (SDR)..... ROOM 2

The Software IS the Radio

Speakers: Gerald Youngblood, K5SDR, FlexRadio Systems
Bob McGwier, N4HY
Frank Brickle, AB2KT

Software Defined Radios are returning technological innovation to amateur radio. Unlike traditional fixed function radios, a "Software Defined Radio" allows the functionality and performance of the radio to be improved on a continuous basis through software upgrades. This forum will discuss how open source SDR software is changing the way radios are designed and operated.

9:30 - 11:30

DRAKE ROOM 2

Moderator: Don Spillman

11:45 - 1:45

YOUTH IN AMATEUR RADIO..... ROOM 2

Moderator: Noel McKeown, WB8QQC

Speakers: Chris Gerard, KC8WBU, age 16, Equipment and Background of School ARC
Ian Blodger, KD8All, age 13, Fund Raising School ARC
Nick Myaard, KC8ZTV, age 13, School ARC Activities
Andrea Hartlage, KG4IUM, age 14, Youth Involvement in Amateur Radio
Sean Muldauer, KB3KXW, age 14, How Amateur Radio Influenced My Life
Zhenghua Yang, KC0QWA, age 14, Ham Radio Through The Eyes of Different People
Trevor Lawrence, KC0OJH, age 16, The Perks of Contesting

2:15 - 5:00

VHF/UHF MICROWAVE ROOM 2

Moderators: Mike Schulsinger, N8QHV, & Red Dakin, W8ULC(Assistant)

Speakers: Dave Sublette, K4TO, Multiband Microwave Operation
Kent Brittain, WA5VJB, Wide band Antenna
Sam Jewell, G4DDK, SSETI Express Satellite
Brandin Schamer, WG4NVK, Long Distance 2.4 GHz
Justin Rigling, KC8OIO, 802.11B Communication
Joe Lynch, N6CL, VHF and Ham Band, Then and Now

8:15 - 9:30

WHAT'S YOUR BUZZ IN AMATEUR RADIO? ROOM 3

Moderator: Jim Haynie, W5JBP, and ARRL Board of Directors

See how ARRL works for what-gets-you-going in ham radio; meet the ARRL Prez and YOUR ARRL Family.

9:45 - 11:30 **HF VERTICAL ANTENNA PHASING..... ROOM 3**

The "C-Match" Approach to Phasing Verticals

Moderator: Lee Barrett, K7NM

Phasing of HF antennas is done in both the amateur and the broadcast world. The broadcast approach to phasing verticals is complex, uses multiple networks and is hard to adjust. The amateur approach relies heavily on tuned antennas with good feed point matching, which is usually not physically attainable. This forum will discuss a method of combining the best parts of the broadcast and amateur approaches to produce a phased antenna feed system that is efficient, easy to tune, and performs at near theoretical gain and null depth.

11:45 - 12:45 **MIDCARS ROOM 3**

Moderator: Don Jeffries, N8KYX

Speaker: John Thornton, K9TWV

MIDCARS is a service that operates on 7.258 MHz, 365 days a year from 7:30 A.M. EST until 2:00 P.M. and longer when necessary. MIDCARS is primarily for mobile HF operation, giving mobiles any assistance they need from road conditions and road closings to just saying hello. MIDCARS assists amateurs in proper operating procedures, provides radio checks, audio checks, antennas comparisons, and anything else that a mobile operator may need. MIDCARS acts as an HF calling channel. This forum will discuss mobile HF operations and the service that MIDCARS provides to HF mobile operators.

1:00 - 3:00 **NEWSLINE'S LIVE TOWN HALL MEETING..... ROOM 3**

All Sides Now -A Primer on Recruiting New Hams And Keeping Those Now Licensed In The Hobby

This Town Hall Meeting will deal simultaneously with two topics vital to insuring the future of our hobby-service:

1. Those of recruiting new hams of all ages into the hobby while
2. Slowing the attrition rate of those who are leaving due to disinterest or lack of satisfaction.

Moderator: Bill Pasternak WA6ITF (Amateur Radio Newsline, Inc.)

Keynote Speaker: Rich Moseson, W2VU (Editor of CQ Magazine).

"Ham Radio Operators Come in All Shapes and Sizes" are words attributed to the late Senator Barry M. Goldwater, K7UGA, in 1986. They are as apropos today as they were then and maybe even more so. Rich expands on these thoughts as they fit ham radio in the 21st century and the ham radio that is yet to come

Dave Bell, W6AQ (DBA Entertainment Corp.), "Defining Whom To Recruit" - In making movies and TV shows Producer/Director Dave Bell deals with a lot of people. In his presentation Dave will give you some clues on how to know who's who.

Henry Feinberg, K2SSQ (Interpreter of Science and Technology),
"Communicating Our Story to the Outside World" Hams have a bad habit of talking a language of their own and that is OK when talking with another ham, but it may be a turnoff to a non-ham or non-technical person. Learning how to communicate about ham radio in plain language is important and K2SSQ will explain why.

Allen Pitts, W1AGP (Public Relations Director - ARRL),
"The Role of the ARRL." Since its inception, the ARRL has been a leading force in the recruitment of new people to the hobby. Find out the about the latest programs that the ARRL has to offer and how the ARRL recruitment program can benefit you and your community.

Ray Novak, N9JA, (Icom America), "The Role of Industry"
The ham radio supply industry takes recruitment very seriously. One of the leaders in this area is Icom America which underwrites several recruiting projects aimed at all ages. Learn how you can support their efforts and those of other members of the ham radio industry.

Trevor Conroy, W7TDC and Sara Saeger K3OOO. If you want to know how to reach the minds and hearts of the young, then you need to ask the young. Our speakers are a pair of teenage hams who not only love the hobby, but also share their enthusiasm with everyone with whom they come into contact. What's their secret? Find out when you meet them.

Carole Perry, WB2MGP (Retired Educator). Classrooms provide a unique opportunity to interest youngsters in the hobby. No place has as many young people together for as much time under the same roof every day, but there are some pitfalls. What are they and how do you avoid them? Carole will use her many years of expertise to let you know.

Pat Tice, WAØTDA - (General Manager of the Minnesota based HandiHams)
- "Mentoring After Licensing" A piece of paper from the FCC does not make a well rounded radio amateur. He or she really needs to be guided into the core of the hobby by people with experience in it. Pat, who runs the greatest ham radio mentoring program of all, will explain the importance of one-on-one mentoring.

D.E. Dee Logan, W1HEO, (public relations expert) W1HEO will explain how a new joint effort by Cleveland area radio clubs promotes ham radio in that city.

3:15 - 5:00 **M.A.R.S.** **ROOM 3**

USAF/Navy/Marines

Moderators: Bob Sutton, Chief, Army MARS

Ray Collins, Chief, Air Force MARS

Bo Lindfors, Chief, Navy-Marine Corps MARS

Forum is an update on the status of the three separate MARS services and will address the Joint Exercises and support of Homeland Defense and Homeland Security. In addition we will also discuss technical innovations such as ALE and sound card modes and how they are being implemented jointly in the MARS program.

8:00 - 9:15 **FOX HUNTING** **ROOM 4**

Moderators: Dick Amett & Bob Frey

9:30 - 12:15 **DXING**..... **ROOM 4**

Sponsored by the SouthWest Ohio DX Association

Moderated : Jay Slough, K4ZLE

Speakers: Bharathi Prasad, VU2RBI, VU4RBI DXpedition and tsunami operations

Harry Flasher, AC8G, 1989 KP5 DXpedition

Garry Ritchie, W8OI, Current KP1-KP5 activation efforts

Bob Allphin, K4UEE, 3YOX - The one that got away, temporarily

Carl Luetzelschwab, K9LA, Lower band propagation for low sunspot times

Wayne Mills, N7NG, DXCC items update from ARRL

All the above, Q&A

CONTESTING

This forum has been moved from HARA Arena to the Van Cleve ballroom of the Crowne Plaza Hotel on Saturday from 2:30 P.M. to 5:00 P.M.

12:30 - 1:30 **SATERN** **ROOM 4**

Moderated: Peggy McNary

Speaker: Major Patrick McPherson, WW9E, National Director for SATERN

3:30 - 5:00 **HIDDEN ANTENNAS FOR HOMEOWNERS!**..... **ROOM 4**

Moderator: Gordon West, WB6NOA

What? CC & R's won't let you put up a big HF antenna? Gordon shows and tells you how to get a whopping signal on HF without upsetting the neighbors or homeowner association. Automatic tuners come to the rescue with live tuner demos, plus straight talk about how well dipoles work hidden in the attic. Gordon will give away an automatic tuner to one lucky forum attendee, courtesy SGC Inc.

Forums

Sunday, May 22, 2005

- 8:30 - 10:00 ARRL PUBLIC RELATIONS ROOM 1**
Moderator: Allen Pitts, W1AGP
Your local electric company is going to test BPL in your area and the news reporter thinks it's all just wonderful. Now what do you do?! The ARRL PR Forum for 2005 is an interactive panel discussion with some of the most passionate Public Relations people involved in keeping the truth about the interference issues a central topic in the media coverage on BPL.
- 10:15 - 12:00 ARRL TECHNOLOGY TASK FORCE ROOM 1**
Moderator: Howard Huntington, K9KM, Central Division Vice Director,
 Chairman Technology Task Force:
* HSMM Working Group
* Digital Voice Working Group
* SDR Software Defined Working Group
- 8:30 - 10:00 BICYCLE MOBIL HAMS OF AMERICA..... ROOM 2**
The 15th Annual BMHA forum
Moderator/speaker: Mike Nickolaus, NF0N
Speakers: Bill Carpenter, AA8EY (Amateur Radio Coordinator)
 Mary Carpenter-N8OAM (SAG Coordinator)
Bicycle Mobile Hams of America was founded by Hartley Alley, NA0A in 1989 when a QST article asked hams who operate their radios while bicycle-mobile to get together and form a group. This forum will discuss the role Amateur Radio plays in the Great Ohio Bicycle Adventure, GOBA, a large annual week long bicycle event. Our speakers will relate their experiences and describe their activities in working with many bicyclists and amateur radio operator bicyclist, over the last seven years.
- 10:15 - 12:00 BATTLESHIP NEW JERSEY ROOM 2**
AMATEUR RADIO STATION
Moderator: Harry Bryant, AA2W, President, Battleship New Jersey Amateur
 Radio Station
NJ2BB group will cover the topics of Museum ships in general; the history of the "Big J"; restoration efforts as well as their success in integrating Ham Radio into the ship's overall plan of public education. Future plans for restoration and operations. Battleship brochures and coupons will be available in limited numbers.

- 8:30 - 10:00 SDR (SOFTWARE DEFINED RADIO) ROOM 3**
USERS ROUNDTABLE
 Moderator: Eric Ellison, AA4SW
- 10:15 - 12:00 SWL/SCANNING..... ROOM 3**
 Moderator: Tracy Wood, K7UO/4
- 8:30 - 10:00 SKYWARN..... ROOM 4**
 Moderator: Chris Novy
 Forum is for both beginning and experienced storm spotters and for storm chasers wishing to contribute to local warnings. We will thoroughly cover forecasting tools, mobile data acquisition and interpretation, spotter safety, difficult observation situations, radio reporting procedures, night spotting, and spotter psychology. If you're tired of the same old PowerPoint spotter classes, this forum is definitely worth attending.
- 10:15 - 11:15 ARRL SECTION MANAGERS & SECTION LEADERS ROOM 4**
 Moderator: Steve Ewald, WV1X
 What makes your ARRL Section tick? Meet and learn from fellow Section Managers and Section Leaders, and tell us about your experiences.

What is Amateur Television?

It allows amateur radio operators to be seen as well as heard.

The Dayton Hamvention offers forums about amateur TV. Have you ever attended one or both of our forums? You might find this mode of operation interesting and stimulating. Amateur Television consists of two primary types: Fast Scan (ATV) and Slow Scan TV (SSTV).

SSTV sends a still image over several minutes to another station using a standard HF transceiver and normal voice bandwidths, usually over long distances; whereas ATV sends broadcast quality full motion pictures over shorter distances, using UHF or microwave bands.

Both ATV and SSTV started out using home-brew equipment. SSTV now is computer based in full color and you can be operational for little additional expense.

Fast Scan ATV is unique because it allows a ham to show another ham his shack in real time, show home videos or can be used for public service for storm reports and damage assessment. You can get on ATV for less than \$100 using a home-brew rig and your present video camera. Attend our ATV forum Saturday, at 12:15 in Room 1, immediately followed by our SSTV forum at 2:45, also in Room 1.
